

Brajesh Tanwar

Hybird Designer

A Hybrid designer who can create good graphics and UI and can convert them into frontend (HTML CSS JS). My name is Brajesh Tanwar I call myself a Hybrid designer, I love to explore the latest web designs and new UI, and UX. I should be more perfect with the latest technology especially Creative Cloud which can make me a more agreeable web designer. To obtain a position that will enable me to use my strong organizational skills, educational background, and ability to work harder and well with people. I have great experience in similar areas of Designing and Corporate Identity.

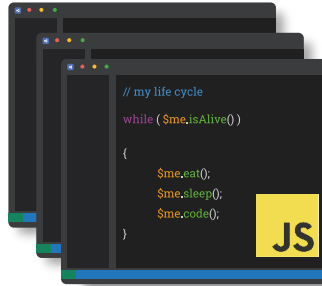

Skills ↓

UI, UX & Graphic Design

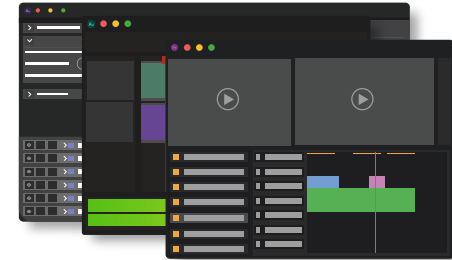

UI refers to the screens, buttons, toggles, icons, and other visual elements that you interact with when using a website, app, or other electronic devices. UX refers to the entire interaction you have with a product, including how you feel about the interaction. I have been working in the IT sector for 7 years and only UI and UX is the part where I work a lot of time.

Front End

A front-end developer creates Websites and applications using web languages such as HTML, CSS, and JavaScript that allow users to access and interact with the site or app. When you visit a website, the design elements you see were created by a front-end developer. And I have good knowledge of HTML CSS and basic knowledge of JavaScript.

VFX Artist

A VFX artist is responsible for creating visual images, animations, and special effects to enhance film, television, and online and console gaming. They create simulations and mockups. And I am always inspired by games and especially movies like Toy Story, Harry Potter and all, and.

Design a Family Seal

Description

This contest is quite straight forward.

You will adapt a family crest into a simple roundel-style seal. I will provide a copy of the crest, then it is up to you to provide the best adaptation, with the following guidelines:

- You may maintain or alter the number of elk in the design;
- The colour scheme must be maintained, or mostly maintained;
- Blue and Yellow checked border must form part of your design; and
- Entries must be in the form of a png and/or svg file.

UI design for Skillopedia

Description

Hello guys!

We are looking for an interesting print design for a T-shirt. The print is for agency business providing home help assistance. The print should be catchy and simple so that everyone can wear it for any occasion. Color Mode: CMYK for best printing, Vector Graphics: .jpg .png .ai .eps .svg, T-Shirt: grey, black, white, red, yellow, pink, blue. The slogan text: Personalized for your family needs. Use the web address as well. [sitycare .com](http://sitycare.com) be creative and you can use the icons of services.

UI design for Skillopedia

Description

Orange yellow is our logo color, so I don't wanna you to change this color, but you can change other colors if you like. I wanna the website can let customer feel dynamic, young and fashion. The attachment is the original one, and two pictures are in one. Finally, you should give me the PSD document.
